**Ontwerp van koninklijk besluit tot afbakening van steunzones in het Vlaamse Gewest rondom Genk, Turnhout, Machelen en Wielsbeke**

**Projet d'arrêté royal délimitant des zones d'aide dans la Région flamande autour de Genk, Turnhout, Machelen et Wielsbeke**

**VERSLAG AAN DE KONING**

**RAPPORT AU ROI**

Sire,

Sire,

In artikel 16 van de wet van 15 mei 2014 houdende uitvoering van het pact voor competitiviteit, werkgelegenheid en relance, is bepaald dat een gewest dat met de federale overheid een in dat artikel bedoeld samenwerkingsakkoord heeft gesloten, in het geval van een grootschalig collectief ontslag een steunzone aan de minister die bevoegd is voor Financiën kan voorstellen.

L'article 16 de la loi du 15 mai 2014 portant exécution du pacte de compétitivité, d'emploi et de relance, prévoit qu'une région, qui a conclu un accord de coopération visé dans cet article avec le gouvernement fédéral, peut, dans le cas d'un licenciement collectif de grande échelle, proposer une zone d'aide au ministre qui a les Finances dans ses attributions.

Op 24 april 2024 had ik de eer om een voorstel van het Vlaamse Gewest te mogen ontvangen. In dit voorstel wordt de beslissing van de Vlaamse Regering van 22 maart 2024 om vier nieuwe steunzones af te bakenen, uitgevoerd door te voorzien in een concrete afbakening van deze steunzones en een verantwoording waarin wordt beschreven op welke wijze de afbakening van de steunzones zal bijdragen aan de reconversie van de door de collectief ontslagen getroffen regio's.

Le 24 avril 2024, j'ai eu l'honneur de recevoir une proposition de la Région flamande. Cette proposition exécute la décision du Gouvernement flamand du 22 mars 2024 concernant la délimitation de quatre nouvelles zones d'aide; en prévoyant une délimitation concrète de ces zones d'aide et une justification qui décrit comment la délimitation des zones d'aide contribuera à la reconversion des régions touchées par les licenciements collectifs.

In het voorstel van de Vlaamse Regering wordt uiteengezet op welke wijze de vier grootschalige collectieve ontslagen zoals bedoeld in artikel 15, 5°/1, van de wet van 15 mei 2014 houdende uitvoering van het pact voor competitiviteit, werkgelegenheid en relance hebben plaatsgevonden.

La proposition du Gouvernement flamand expose de quelle manière les quatre licenciements collectifs à grandes échelles, au sens de l'article 15, 5°/1, de la loi du 15 mai 2014 portant exécution du pacte de compétitivité, d'emploi et de relance, ont eu lieu.

Artikel 15, 5°/1, van de voormelde wet van 15 mei 2014 omschrijft een grootschalig collectief ontslag als een geheel van één of meerdere collectieve ontslagen die binnen een termijn van drie jaar ten minste 500 werknemers heeft getroffen in één of meerdere vestigingen van één of meerdere ondernemingen gelegen in een ononderbroken zone van 20 km<sup>2</sup> en binnen een cirkel met een straal van maximaal 5 km. De drempel van 500 ontslagen werknemers kan worden teruggebracht

L'article 15, 5°/1, de la loi du 15 mai 2014 précitée décrit un licenciement collectif à grande échelle comme un ensemble d'un ou plusieurs licenciements collectifs qui au cours d'une période de trois ans a affecté au moins 500 travailleurs dans un ou plusieurs établissements d'une ou plusieurs entreprises situées dans une zone continue de 20 km<sup>2</sup> comprise dans un cercle de maximum 5 km de rayon. Le seuil de 500 travailleurs licenciés peut être ramené à 250 si la

tot 250 indien de totale steunzone die het gewest voorstelt een graad van jeugdwerkloosheid kent, die geacht wordt gelijk te zijn aan het gemiddelde van de jaarlijkse graad van jeugdwerkloosheid in de gemeenten van de betrokken zone, die hoger is dan 125 pct. van het nationale gemiddelde. Deze drempel kan eveneens worden teruggebracht tot 250 indien de totale steunzone die het gewest voorstelt een graad van werkloosheid kent onder personen ouder dan 50 jaar, die geacht wordt gelijk te zijn aan het gemiddelde van de jaarlijkse graad van werkloosheid onder personen ouder dan 50 jaar in de gemeenten van de betrokken zone, die hoger is dan 125 pct. van het nationale gemiddelde.

Overeenkomstig artikel 16 van de voormelde wet van 15 mei 2014 komen de collectieve ontslagen in aanmerking die hebben plaatsgevonden binnen een termijn van drie jaar voordat het Gewest het voorstel tot afbakening van de steunzone heeft gedaan.

Op 10 oktober 2023 heeft de kennisgeving van het collectief ontslag bij het bedrijf Sappi te Lanaken bij Genk plaatsgevonden, waarbij 642 arbeidsplaatsen verloren gingen.

In de kalenderjaren 2022 en 2023 gingen er ten gevolge van zes collectieve ontslagen in de regio Turnhout-Beerse 616 arbeidsplaatsen verloren, bij de volgende ondernemingen die in een ononderbroken zone van 12,16 km<sup>2</sup> en binnen een cirkel met een straal van maximaal 5 km gelegen zijn:

- Cloetta België NV (mei 2022): 116 arbeidsplaatsen;
- Signify Turnhout (december 2022): 30 arbeidsplaatsen;
- Nutriad International NV (maart 2023): 23 arbeidsplaatsen;
- Signify Belgium nv (maart 2023): 174 arbeidsplaatsen;
- Janssen Pharmaceutica NV (januari 2023): 201 arbeidsplaatsen;
- Janssen Pharmaceutica NV / J.C. General services BV (september 2023): 72 arbeidsplaatsen.

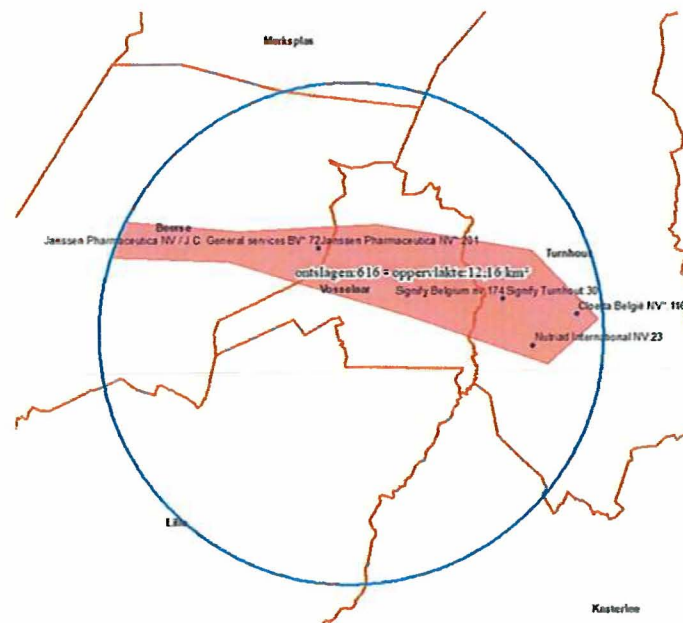

totalité de la zone d'aide proposée par la région présente un taux de chômage des jeunes, considéré égal à la moyenne du taux de chômage annuel des jeunes dans les communes de la zone en question, supérieur à 125 p.c. de la moyenne nationale. Ce seuil peut également être ramené à 250 si la totalité de la zone d'aide proposée par la région présente un taux de chômage des personnes âgées de plus de 50 ans, considéré égal à la moyenne du taux de chômage annuel des personnes âgées de 50 ans dans les communes de la zone en question, supérieur à 125 p.c. de la moyenne nationale.

Conformément à l'article 16 de la loi du 15 mai 2014 précité, les licenciements collectifs sont prises en considération si ces licenciements ont eu lieu endéans un délai de trois ans, avant que la Région a fait la proposition de déterminer la zone d'aide.

La notification du licenciement collectif de l'entreprise Sappi à Lanaken près de Genk, en conséquence duquel 642 postes de travail furent perdus, a eu lieu le 10 octobre 2023.

Dans les années civiles 2022 et 2023, suite aux licenciements collectifs des environs de Turnhout-Beerse, 616 postes de travail furent perdus, dans les entreprises suivantes, situées dans une zone continue de 12,16 km<sup>2</sup> et comprises dans un cercle d'un maximum de 5 km de rayon :

- Cloetta België S.A. (mai 2022) : 116 postes de travail ;
- Signify Turnhout (décembre 2022) : 30 postes de travail ;
- Nutriad International S.A. (mars 2023) : 23 postes de travail ;
- Signify Belgium S.A. (mars 2023) : 174 postes de travail ;
- Janssen Pharmaceutica S.A. (janvier 2023) : 201 postes de travail ;
- Janssen Pharmaceutica S.A. / J.C. General services S.C. (septembre 2023) : 72 postes de travail.

Vervolgens gingen er in de kalenderjaren 2021 tot en met 2023 ten gevolge van twaalf collectieve ontslagen in de regio Machelen (gemeenten Vilvoorde, Machelen, Diegem en Zaventem) 513 arbeidsplaatsen verloren, bij de volgende ondernemingen die in een ononderbroken zone van 18,01 km<sup>2</sup> en binnen een cirkel met een straal van minder dan 5 km gelegen zijn:

- Novartis Pharma nv (juli 2022): 82 arbeidsplaatsen;
- Freyssinet Belgium / R.B. Technics (juli 2023): 19 arbeidsplaatsen;
- Newrest Servair Airport Services nv (oktober 2021) : 15 arbeidsplaatsen;
- Avis Budget Group (februari 2021) : 17 arbeidsplaatsen;
- NTT Belgium nv (juli 2021) : 93 arbeidsplaatsen;
- Bayer (september 2022) : 43 arbeidsplaatsen;
- CBRE GWS Belgium NV (oktober 2022) : 78 arbeidsplaatsen;
- Agilent Technologies Belgium (september 2023) : 15 arbeidsplaatsen;
- Carrier Fire & Security EMEA (december 2023) : 21 arbeidsplaatsen;
- Ryanair basis te Zaventem (januari 2023) : 59 arbeidsplaatsen;
- Sabena Aerospace Engineering NV (september 2023) : 22 arbeidsplaatsen;

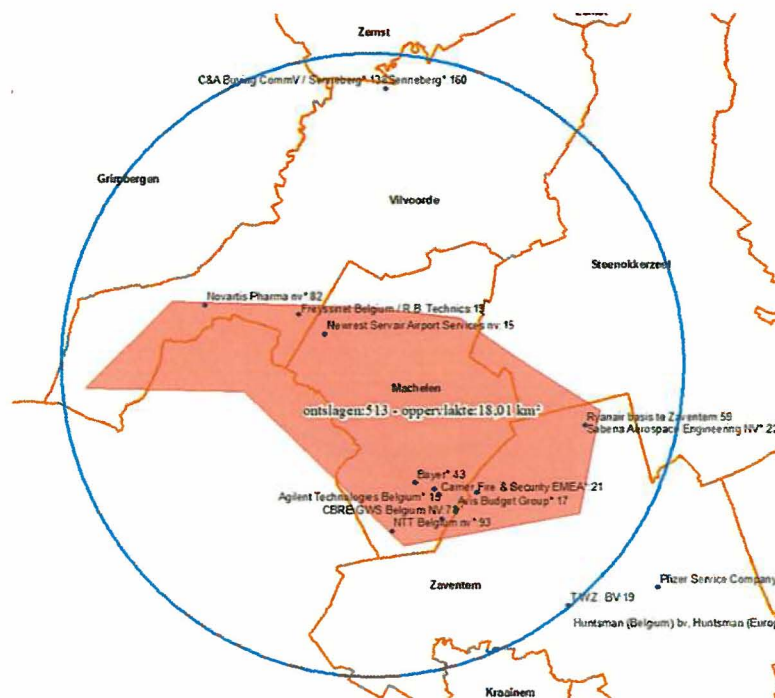

Ensuite, Dans les années civiles 2021 à 2023, suite à douze licenciements collectifs des environs de Machelen (communes de Vilvoorde, Machelen, Diegem et Zaventem), 513 postes de travail furent perdus, dans les entreprises suivantes, situées dans une zone continue de 18,01 km<sup>2</sup> et comprises dans un cercle d'un maximum de 5 km de rayon :

- Novartis Pharma S.A. (juillet 2022): 82 postes de travail ;
- Freyssinet Belgium / R.B. Technics (juillet 2023): 19 postes de travail ;
- Newrest Servair Airport Services S.A. (octobre 2021) : 15 postes de travail ;
- Avis Budget Group (février 2021) : 17 postes de travail ;
- NTT Belgium S.A. (juillet 2021) : 93 postes de travail ;
- Bayer (septembre 2022) : 43 postes de travail ;
- CBRE GWS Belgium S.A (octobre 2022) : 78 postes de travail ;
- Agilent Technologies Belgium (septembre 2023) : 15 postes de travail ;
- Carrier Fire & Security EMEA (décembre 2023) : 21 postes de travail ;
- base Ryanair à Zaventem (janvier 2023) : 59 postes de travail ;
- Sabena Aerospace Engineering S.A. (septembre 2023) : 22 postes de travail ;

- PepsiCo Belex bvba - Tropicana Europe nv  
(oktober 2022) : 49 arbeidsplaatsen.

- PepsiCo Belex S.P.R.L. – Tropicana Europe  
S.A. (octobre 2022) : 49 postes de travail.

Tot slot gingen er in de kalenderjaren 2021 tot en met 2023 ten gevolge van vier collectieve ontslagen in de regio Wielsbeke (gemeenten Wielsbeke en Meulebeke) 606 arbeidsplaatsen verloren, bij de volgende ondernemingen die in een ononderbroken zone van 14,99 km<sup>2</sup> en binnen een cirkel met een straal van minder dan 5 km gelegen zijn:

Enfin, dans les années civiles 2021 à 2023, suite aux licenciements collectifs des environs de Wielsbeke, 606 postes de travail furent perdus, dans les entreprises suivantes, situées dans une zone continue de 14,99 km<sup>2</sup> et comprises dans un cercle d'un maximum de 5 km de rayon :

- Sax Sanitair nv (april 2021): 70 arbeidsplaatsen;

- Sax Sanitair S.A. (avril 2021): 70 postes de travail ;

- Ideal Floorcoverings (november 2022): 212 arbeidsplaatsen;

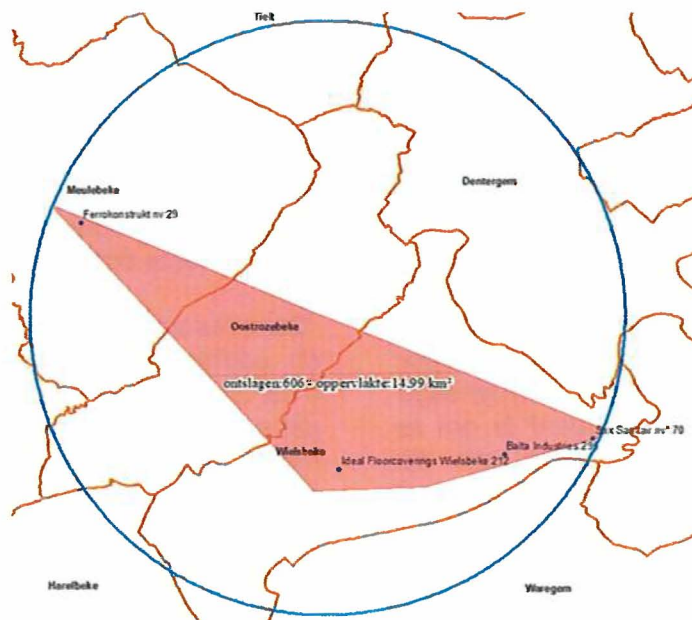

- Ideal Floorcoverings (novembre 2022): 212 postes de travail ;

- Balta Industries (februari 2023): 295 arbeidsplaatsen;

- Balta Industroes (février 2023) : 295 postes de travail ;

- Ferrokonstrukt nv (augustus 2021): 29 arbeidsplaatsen.

- Ferrokonstrukt S.A. (août 2021): 29 postes de travail.

Deze groepen van collectieve ontslagen voldoen dus bijgevolg aan de voorwaarden om te worden aangemerkt als vier verschillende grootschalige collectieve ontslagen zoals bedoeld in artikel 15, 5°/1, van de voormelde wet van 15 mei 2014.

Ces groupes de licenciements collectifs satisfont donc bien aux conditions de leur prise en considération comme étant quatre différents licenciements collectifs à grande échelle, tels que définis à l'article 15, 5°/1, de la loi précitée du 15 mai 2014.

Ook aan de voorwaarde dat er een samenwerkingsakkoord met het desbetreffende gewest moet worden gesloten, werd voldaan via het samenwerkingsakkoord van 3 april 2015 tussen de Federale Staat en het Vlaamse Gewest betreffende de uitvoering van artikel 16 van de wet van 15 mei 2014 houdende uitvoering van het pact voor competitiviteit, werkgelegenheid en relance.

Il est également satisfait à la condition de devoir conclure un accord de coopération avec les régions concernées via l'accord de coopération du 3 avril 2015 entre l'Etat fédéral et la Région flamande relatif à l'exécution de l'article 16 de la loi du 15 mai 2014 portant exécution du pacte de compétitivité, d'emploi et de relance.

Wat dit samenwerkingsakkoord betreft wordt in navolging van de opmerking onder randnummer 5.2.2 in advies 61.332/3 van 15 mei 2017 over het ontwerp dat aanleiding heeft gegeven tot het koninklijk besluit van 22 oktober 2017 'tot uitvoering van artikel 16 van de wet van 15 mei 2014 houdende uitvoering van het pact voor competitiviteit, werkgelegenheid en relance, wat het Waalse Gewest betreft', voorgenomen om deze problematiek definitief te beslechten bij de hernieuwing van dit samenwerkingsakkoord, die zal moeten plaatsvinden naar aanleiding van de buitenwerkingtreding van de algemene groepsvrijstellingsverordening.

En ce qui concerne ledit accord de coopération, l'observation au point 5.2.2, de l'avis 61.332/3 du 15 mai 2017 sur le projet devenu l'arrêté royal du 22 octobre 2017 'portant exécution, en ce qui concerne la Région wallonne, de l'article 16 de la loi du 15 mai 2014 portant exécution du pacte de compétitivité, d'emploi et de relance', destinée à régler définitivement cette question lors du renouvellement du présent accord de coopération, qui devra avoir lieu suite à l'expiration du règlement général d'exemption par catégorie.

Gelet op de kritische houding in de adviezen van de afdeling wetgeving van de Raad van State ten opzichte van artikel 6 van dit samenwerkingsakkoord, lijkt het aangewezen om dit artikel buiten beschouwing te laten en er van uit te gaan dat dit artikel geen basis kan vormen voor het hypothetische geval wanneer de Europese Commissie ten gevolge van een

Compte tenu de l'estimation critique issue des avis de la section législation du Conseil d'État à l'égard de l'article 6 du présent accord de coopération, il semble approprié de ne pas tenir compte de cet article et de partir du fait que cet article ne peut pas servir de base au cas hypothétique où la Commission européenne, suite à un dépassement des règles de cumul, récupérerait l'aide.

overschrijding van de cumulregels zou overgaan tot terugvordering van de steun.

In het voorstel van de Vlaamse Regering wordt vervolgens uiteengezet op welke wijze de afgebakende steunzones bijdragen aan de reconversie van de door de collectieve ontslagen getroffen regio's:

*"In de volgende paragrafen worden een aantal indicatoren aangehaald die aantonen dat het voor bedrijven in de huidige en toekomstige economische conjunctuur niet evident is om te investeren. Het blijven voortbestaan van de steunzone maatregel is dan ook van cruciaal belang voor de stimulatie van de economie.*

#### Collectieve ontslagen en faillissementen

Collectieve ontslagen vormen het belangrijkste criterium voor de afbakening van nieuwe steunzones, maar zijn vooral een grote aderlating voor verschillende regio's in Vlaanderen. Ter illustratie de sluiting van Sappi: binnen de top 500 van grootste bedrijven is het aandeel bedrijven dat in het Maasland is gevestigd weinig veranderd (van 7,4% naar 8% zelfs), maar ging het aandeel in omzet achteruit van 8,31 naar 7,1% en het aandeel in de totale tewerkstelling zelfs van 7,34 naar 4,4%.

*In de laatste vijf jaar sloten 330 vestigingen in Vlaanderen collectief de deuren en verloren meer dan 20.000 werknemers hun job.*

La proposition du Gouvernement flamand expose ensuite de quelle manière les zones d'aides délimitées contribuent à la reconversion des zones géographiques touchées par les licenciements collectifs :

*"Dans les paragraphes suivants sont mentionnés un certain nombre d'indicateurs prouvant qu'il n'est pas évident pour les entreprises d'investir dans la conjoncture économique actuelle et future. Maintenir la perdurance de la mesure de zone d'aide est donc également d'importance cruciale pour la stimulation de l'économie.*

#### Licenciements collectifs et faillites

Les licenciements collectifs composent le critère le plus important pour la délimitation de nouvelles zones d'aide, mais sont avant tout une grande hémorragie pour différentes régions en Flandres. A titre d'illustration, la fermeture de Sappi : dans le top 500 des plus grandes entreprises, la part des entreprises qui est établie dans la vallée mosane a évolué (de 7,4% à même 8%), mais la part établie au-delà est passée de 8,31 à 7,1%, et la part dans l'emploi total est, quant à celle-ci, passée de 7,34 à 4,4%.

*Dans les cinq dernières années en Flandres, 330 établissements ont collectivement fermé leurs portes et plus de 20.000 travailleurs ont perdu leur emploi.*

| Provincie / Province                  | Vestigingen / Etablissements | Werknemers / Travailleurs |
|---------------------------------------|------------------------------|---------------------------|
| Antwerpen / Anvers                    | 113                          | 6444                      |

### Sectorale gevoeligheid

Gedurende het laatste decennium is er een algemene daling van het aandeel industrie in de totale economie. In België daalde het aandeel van de industrie in het BBP van 21% naar 17% tussen 2003 en 2022. In Vlaanderen daalde dit van 25% naar 20%. Voor 2024 kunnen we een verder achteruitgang van het aandeel van maakbedrijven verwachten, wetende dat de economische groei (voor België) voor 2023 wordt ingeschat op 0,3% en 1% in 2025. Om die reden worden de steunzones hoofdzakelijk ingevuld door bedrijventerreinen waar de grootste concentraties aan industrie zich bevinden.

### Economische prognose

Verskillende indicatoren schetsen een weinig rooskleurig beeld van de economische situatie voor de komende jaren: hoge energieprijzen en de inflatie, de verstoorde aanvoerlijnen, de krapte op de arbeidsmarkt, de hoge loonkosten en de rendabiliteit die onder druk staat.

### Loonkosten en energieprijzen

Uit een recente bevraging van werkgeversorganisaties in de regio Limburg situeren de grootste zorgen van ondernemingen zich op het vlak van loonkosten, energieprijzen, toenemende administratieve verplichtingen en personeelstekort.

In de eerste plaats is blijvende ondersteuning hard nodig om de totale loonkost onder controle te houden en de drempel om bijkomende aanwervingen te doen, laag te houden. De loonkost scheert historisch hoge toppen:

### Vulnérabilité sectorielle

Pendant la dernière décennie, il y a eu une diminution générale de la part de l'industrie dans l'économie. En Belgique, la part de l'industrie dans le PIB a baissé de 21% à 17% entre 2003 et 2022. En Flandres, celle-ci a baissé de 25% à 20%. Pour 2024, on peut s'attendre de surcroît à une nouvelle baisse de la part des entreprises manufacturières, sachant que la croissance économique (pour la Belgique) en 2023 est estimée à 0,3% et à 1% en 2025. Pour ces raisons, les zones d'aide sont introduites principalement dans des terrains d'entreprise où se trouvent les plus grandes concentrations d'industries.

### Prédictions économiques

Divers indicateurs brossent un tableau moins rose de la situation économique pour les années à venir : les prix élevés de l'énergie et l'inflation, les lignes d'approvisionnement perturbées, la pénurie sur le marché du travail, les coûts élevés du travail et la rentabilité sous pression.

### Coûts salariaux et prix énergétiques

D'après une enquête récente auprès des organisations patronales de la région du Limbourg, les principales préoccupations des entreprises sont en termes de coûts de main-d'œuvre, de prix de l'énergie, d'obligations administratives croissantes et de pénurie de personnel.

En premier lieu, un soutien permanent est nécessaire de toute urgence pour maîtriser les coûts salariaux totaux et maintenir le seuil de recrutement supplémentaire à un faible niveau. Le

coût salarial atteint des pics historiquement élevés :

### Rente ECB

De Europese Centrale Bank heeft in korte tijd een aantal renteverhogingen doorgevoerd. In juli 2022 had de ECB voor het eerste in 11 jaar de rente verhoogd, in september van dat jaar was dit de grootste in de geschiedenis van de ECB. Een jaar later is de rentevoet meer dan verdubbeld.

Daarmee wil de ECB de inflatie terugdringen. De keerzijde hiervan is dat bedrijven die willen investeren, meer gaan moeten betalen. Deze impact kan zich ook laten voelen de komende jaren. Daarom is een extra investeringsmaatregel zoals de steunzones meer dan welkom.

### Conjunctuurbarmeter

Zoals de voorspellingen voorafgaand aan de verlenging van de steunzones al aangaven, was een stagnatie van het ondernemersvertrouwen voor 2024 het hoogst haalbare. Na een kleine heropleving in het eerste jaarhelft van 2023, was het vervolg een stuk minder gunstig. Enerzijds zijn er de nog altijd erg negatief noterende winstmarges, anderzijds de negatieve intenties op vlak van investeringen die, samen met een eveneens negatief duikende indicator op vlak van omzet en een verder sputterende export, aan de basis liggen van negatieve vooruitzichten voor het vervolg van 2024.

### Conclusie

Het afbakenen van vier nieuwe steunzones biedt de mogelijkheid om de economie op verschillende niveaus terug positief te beïnvloeden, specifieke sectoren te ondersteunen, investeringen aan te moedigen en de algehele economische groei te stimuleren.

Een van de belangrijkste positieve effecten is het bevorderen van investeringen. Bedrijven worden vaak aangetrokken door de belastingvoordelen, subsidies of andere financiële prikkels die worden geboden in steunzones. Dit kan leiden tot een toename van bedrijfsactiviteiten, nieuwe werkgelegenheid en een versterking van de lokale economie. Het creëert een gunstig klimaat voor ondernemerschap en kan bijdragen aan een

### Taux d'intérêts BCE

La Banque centrale européenne a procédé à plusieurs hausses de taux d'intérêt en peu de temps. En juillet 2022, la BCE avait relevé ses taux d'intérêt pour la première fois en 11 ans, ce qui était le plus important de l'histoire de la BCE en septembre de la même année. Un an plus tard, le taux d'intérêt a plus que doublé.

De cette manière, la BCE veut réduire l'inflation. L'inconvénient, c'est que les entreprises qui veulent investir doivent payer plus. Cet impact peut également se faire sentir dans les années à venir, c'est pourquoi une mesure d'investissement supplémentaire comme les zones aidées est plus que bienvenue.

### Baromètre de la conjoncture

Comme l'indiquent les prévisions antérieures à l'extension des zones d'aide, la stagnation de la confiance des entreprises pour 2024 a été la plus forte possible. Après une petite reprise au premier semestre 2023, la suite a été beaucoup moins favorable. D'une part, il y a les marges bénéficiaires toujours très négatives, d'autre part, les intentions, en termes d'investissements, négatives qui, avec un indicateur de plongée tout aussi négatif en termes de chiffre d'affaires et de nouvelles exportations hésitantes, sont à la base de perspectives négatives pour la suite de 2024.

### Conclusion

La délimitation de quatre nouvelles zones d'aide offre la possibilité d'influencer positivement l'économie à différents niveaux, de soutenir des secteurs spécifiques, d'encourager les investissements et de stimuler la croissance économique générale.

L'un des principaux effets positifs est la promotion de l'investissement. Les entreprises sont souvent attirées par les avantages fiscaux, les subventions ou autres incitations financières offertes dans les zones d'aide. Ceux-ci peuvent entraîner une augmentation des activités commerciales, de nouveaux emplois et un renforcement de l'économie locale. Cela crée un environnement favorable à l'entrepreneuriat et peut contribuer à

*verbeterde concurrentiepositie op internationaal niveau.*

*un meilleur positionnement compétitif au niveau international.*

*Daarnaast kunnen steunzones ook dienen als katalysator voor innovatie. Bedrijven die profiteren van economische stimuleringsmaatregelen worden vaak aangemoedigd om te investeren in onderzoek en ontwikkeling, wat op de lange termijn de productiviteit en concurrentiekracht van een regio kan versterken. Deze investeringen in innovatie kunnen resulteren in de ontwikkeling van nieuwe technologieën, producten en diensten, wat weer gunstig is voor de economie als geheel."*

*En outre, les zones d'aide peuvent également servir de catalyseur pour l'innovation. Les entreprises qui bénéficient d'incitatifs économiques sont souvent encouragées à investir dans la recherche et le développement, ce qui peut améliorer la productivité et le pouvoir concurrentiel d'une région à long terme. Ces investissements en innovation peuvent entraîner le développement de nouvelles technologies, de nouveaux produits et de nouveaux services, ce qui son tour est bénéfique pour l'économie dans son ensemble."*

Het Vlaamse Gewest kan bijgevolg op grond van artikel 16 van de voormelde wet van 15 mei 2014 vier steunzones voorstellen die vanaf 1 november 2024 in werking treden rondom de door de vier grootschalige collectieve ontslagen getroffen ondernemingen, op voorwaarde dat de toepassingsperiode van de bestaande steunzones op die datum is verstreken of dat deze vroegtijdig werden stopgezet.

La Région flamande peut par conséquent, sur base de l'article 16, de loi du 15 mai 2014 précitée, proposer quatre zones d'aide entrant en vigueur le 1<sup>er</sup> novembre 2024 pour les entreprises touchées par les quatre licenciements collectifs à grande échelle, à condition que la période d'application des zones d'aide existantes soit expirée à cette date ou qu'elle ait été prématurément écourtée.

Aangezien de bestaande steunzones rond Genk en Turnhout inderdaad aflopen op 31 oktober 2024 en de Vlaamse Minister van Economie vraagt om de bestaande steunzone rond Zaventem Vilvoorde op 31 oktober 2024 vroegtijdig stop te zetten, is ook aan deze voorwaarde voldaan.

Vu que les zones d'aide existantes autour de Genk et Turnhout viennent à terme le 31 octobre 2024 et que le ministre flamand de l'Economie demande un terme prématuré de la zone d'aide autour de Zaventem Vilvoorde, au 31 octobre 2024, il est donc également satisfait à cette condition.

De Vlaamse Regering stelt dus bijgevolg vier nieuwe steunzones voor met een toepassingsduur van zes jaar en die inwerking treden op 1 november 2024.

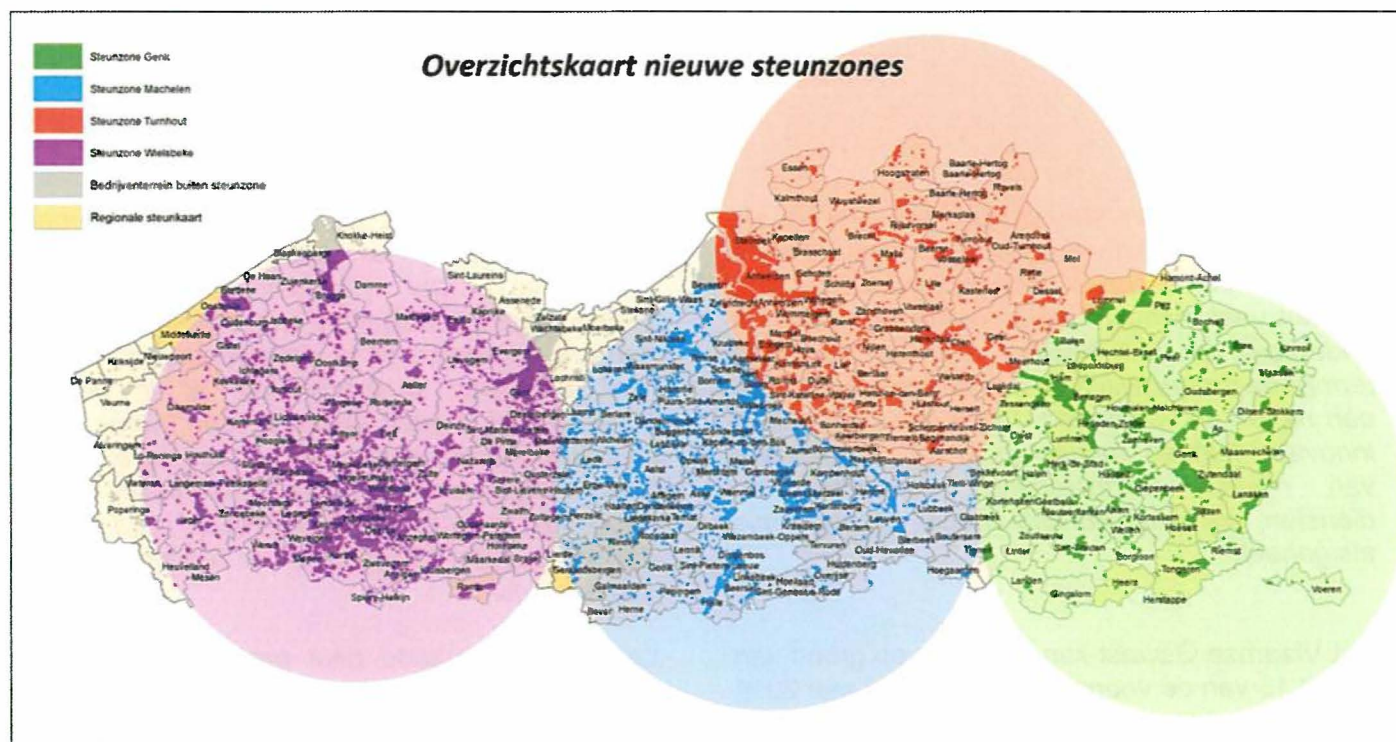

La Région flamande propose donc par conséquent quatre nouvelles zones d'aide pour une durée d'application de six ans et entrant en vigueur le 1<sup>er</sup> novembre 2024.

Deze steunzones omvatten de bedrijventerreinen, terreinen die deel uitmaken van een brownfieldconvenant, of terreinen waar een businesscentrum, doorgangsgebouw, of incubator is gevestigd en die worden vermeld in de bijlage bij dit verslag.

Ces zones d'aide englobent des terrains d'entreprises, des terrains qui font partie d'une convention brownfield, ou des terrains dans lequel un centre d'entreprise, un hall relais ou un incubateur, est établi, et qui sont repris dans l'annexe du présent rapport.

De volgende overzichtskaart geeft een visuele weergave van de vier nieuwe steunzones:

La carte suivante fournit une représentation visuelle des quatre nouvelles zones d'aide :

De door het Vlaamse Gewest voorgestelde steunzones hebben niet tot gevolg dat de in artikel 16 van de voormelde wet van 15 mei 2014 bedoelde normen overschreden worden, aangezien deze een kleinere oppervlakte dan 2.000 km<sup>2</sup> beslaan en een inwonersaantal omvatten dat significant lager is dan 200 000.

Les zones d'aide proposées par la Région flamande ne donnent pas lieu à un dépassement des normes visées à l'article 16, de la loi du 15 mai 2014 précitée, vu que celles-ci couvrent une superficie inférieure à 2.000 km<sup>2</sup> et comprennent un nombre d'habitants significativement plus basse que 200.000.

| <b>Naam</b>         | <b>Oppervlakte (km<sup>2</sup>)</b> | <b>Inwoners</b> |
|---------------------|-------------------------------------|-----------------|
| Steunzone Genk      | 119,9                               | 6.547           |
| Steunzone Turnhout  | 179,3                               | 10.193          |
| Steunzone Machelen  | 111,1                               | 18.427          |
| Steunzone Wielsbeke | 180,3                               | 24.785          |
| <b>Totaal</b>       | <b>590,6</b>                        | <b>59.952</b>   |

| <b>Nom</b>            | <b>Superficie (km<sup>2</sup>)</b> | <b>Habitants</b> |
|-----------------------|------------------------------------|------------------|
| Zone d'aide Genk      | 119,9                              | 6.547            |
| Zone d'aide Turnhout  | 179,3                              | 10.193           |
| Zone d'aide Machelen  | 111,1                              | 18.427           |
| Zone d'aide Wielsbeke | 180,3                              | 24.785           |
| <b>Totale</b>         | <b>590,6</b>                       | <b>59.952</b>    |

Teneinde de rechtszekerheid te bevorderen wordt, net zoals bij de bestaande steunzones er opnieuw voor geopteerd om de zone af te bakenen door te verwijzen naar de kadastrale perceelnummers van de in de zone opgenomen terreinen. Deze werkwijze maakt het mogelijk om de steunzones op een meer accurate wijze af te bakenen en zorgt er ook voor dat deze afbakening ook via andere wegen dan via Geopunt kan worden gecontroleerd.

Afin de préserver la légalité, le choix a de nouveau été fait de délimiter la zone par les références aux numéros de parcelles cadastrales des terrains repris dans la zone. Cette façon de travailler permet de délimiter les zones d'aide d'une façon plus précise et veille également à ce que cette délimitation puisse aussi être contrôlée par d'autres voies que via Geopunt.

Omdat deze kadastrale percelen in het Grootchalig Referentiebestand van het Vlaamse Gewest op een meer nauwkeurige wijze worden afgebakend dan op de meer oudere kadastrale

Du fait que ces parcelles cadastrales ont été délimitées dans la Grootchalig Referentiebestand de la Région flamande d'une façon beaucoup plus pointue que les plans

plannen, wordt voor de exacte afbakening van deze percelen verwezen naar het Grootchalig Referentiebestand dat wordt beheerd door het Vlaamse Gewest.

Om te weten te komen of een bepaald adres zich al dan niet in de steunzone bevindt, of om een correct beeld te krijgen van de afbakening van deze steunzones is het nog steeds aangewezen om de door het Vlaams Gewest ontwikkelde webapplicatie Geopunt: (<http://www.geopunt.be/>) te raadplegen, waar zowel aan de hand van een specifiek adres of een perceelsnummer kan worden opgezocht of een bepaald perceel of adres effectief in de steunzone gelocaliseerd is.

Dit is, Sire, de draagwijdte van het besluit dat U wordt voorgelegd.

Ik heb de eer te zijn,

Sire,

van uwe Majesteit,

de zeer eerbiedige en  
zeer getrouwe dienaar,

De minister van Financiën,

cadastraux plus anciens, c'est au Grootchalig Referentiebestand qui est géré par la Région flamande que l'on se réfère pour la délimitation exacte de ces parcelles.

Pour savoir si une adresse déterminée se trouve ou non dans la zone d'aide, ou pour obtenir une image correcte de la délimitation de ces zones d'aide, il est encore une fois renvoyé à la consultation de l'application web Geopunt développée par la Région flamande: (<http://www.geopunt.be/>), où, tant au moyen d'une adresse spécifique que d'un numéro de parcelle, on peut vérifier si une adresse ou parcelle déterminée est effectivement localisée dans la zone d'aide.

Telle est, Sire, la portée de l'arrêté qui Vous est soumis.

J'ai l'honneur d'être,

Sire,

de Votre Majesté,

le très respectueux, et  
très fidèle serviteur,

Le ministre des Finances,

Vincent VAN PETEGHEM
